PRISM
DESIGN WITH INTENTION

Authentic. Aesthetic. Remarkable!

The innovative PRISM TFL Taction Oak series with embossed in register (EIR) technology offers an exciting opportunity to showcase true-to-life laminated panels with a look and feel that rivals real wood. This oak's natural characteristics are captured and registered on the plate itself, and elegantly synchronized two-sides for a unique dual low-gloss finish.

Make a bold design statement with Taction Oak's five exclusive woodgrains.

Taction Oak

Let PRISM take your designs to the next level with true-to-life laminates that are durable and authentic to the touch.

Channeling the subtle structure and color of its mighty namesake, Taction Oak brings a natural touch to any spot. Warm tones, modern bohemian sensibilities and a cozy, inviting personality make these surfaces sweet as they are smart.

PRISM is your perfect partner.

PRISM TFL on high quality particleboard and MDF substrate, is manufactured entirely by ARAUCO at our facilities across North America. We manage our own inventories to maintain a current and balanced design offering and a dependable supply you can count on.

A truly sustainable surfacing solution, PRISM panels meet relevant green building standards and comply with TSCA Title VI/CARB-2. ARAUCO provides Life-Cycle Assessment data, EPDs, Transparency Briefs and HPDs to support your LEED projects. Substrates are manufactured from wood fiber that meets FSC® Chain of Custody standards (FSC-C019364).

PRISM Symmetry

Complementary edgebanding, HPL, 3DL, wrapping and moulding products, and doors are available for our entire collection. The partnership we have with these suppliers will ensure that your project has a cohesive and natural look.
